

## TRAINSHOP: Improved Didactics and Presentation Skills

# PRESS RELEASE AND INVITATION

20 November 2003

Within the framework of increasing the use of Renewable Energy and Energy Efficiency technologies in Namibia, **R3E** (Namibia) in cooperation with **INWENT** (Germany) has been conducting Training Courses for Namibia's Solar Energy Industry since 2001.

Within this initiative, two further training courses are held during November 2003, being;

- **Trainshop: Improved Didactics and Presentation Skills (19 – 21 November)**
- **Training Course: Marketing of Solar Energy Systems (24 – 28 November)**

Venue: Polytechnic of Namibia, Engineering Building, Classroom G27

**You are herewith cordially invited to attend the Closing Ceremony of the Improved Didactics and Presentation Skills Course on Friday 21 November, 16:30, at the venue indicated above.**

The Closing Ceremony will offer you the opportunity to get deeper insights into the contents of the course and how it contributes towards the greater objective of ensuring a sustainable and clean energy future for Namibia.

For more information please refer to the attached **Information Sheet** or phone **Robert Schultz** (R3E Manager) under **081 244 3063**.
